CAMBRAI SECTOR FRONTAustro-Germans Meet With
Heavy Casualties On
Italian Front

(Compiled from A. P. Dispatches.)
Germany is to make another peace offer at the Christmas season, according to an unofficial dispatch from Berlin received in Geneva.

Emperor William, it is reported, will extend the offer in his Christmas message, declaring that the responsibility for bloodshed in the coming year will lie with the entente if it rejects the proffer.

Meanwhile German and Austria-Hungary are continuing their military drive southward from the Alps and coupling this threat of the crushing of Italy with the menace of a German offensive on the western front, a menace rendered more serious by the release of hundreds of thousands of troops from the Russian front because of the virtual elimination of Russia from the war.

It is only in the northern Italian field that a really sustained campaign is in progress at present. Several times recently there has been a temporary let up but upon each renewal the force of the attack apparently has been intensified, as bigger guns and fresh reserves were brought up.

The attack in its present phase is centering upon Monte Bretta, northwest of Monte Grappa, and just to the east of the Brenta. Evidently the Italian line is just as strongly held here as in the other sectors recently attacked; for the advances from the front report only a very slight yielding in the face of several attacks in which the enemy sacrificed large numbers of troops.

The tentative thrusts which are being made by the Germans on the Franco-Belgian front, as if a weak spot in the entente line was being sought out, are being countered after each hostile move. Field Marshal Haig's troops have met the last such blow in Flanders where a trench, the section near Polderhoek, was taken by the Germans, with an attack in which a considerable part of the position was recovered.

Partial, if not complete, collapse of the counter revolution in Russia is indicated in an announcement from Petrograd official news agency which says the Bolsheviks have captured three important cities in the Don Cossack territory and that General Kaledines, leader of the Don Cossacks, has been arrested, apparently by his own generals.

With General Korotoff reported defeated and wounded near Bielorod and General Kaledines under arrest, the only one left of the counter revolutionary triumvirate of military leaders is General Dutov, hetman of the Ural Cossacks, who has been operating in the province of Orenburg. The latest report on the situation there is that there has been little military activity, while Bolshevik agents were attempting to undermine the morale of Dutov's troops.

General Kaledines' fall probably followed the capture of Rostov, Nakhichevan and Taganrog by the Bolsheviks. There had been heavy fighting in and around Rostov since last Sunday and previous reports had been that General Kaledines was winning. Nakhichevan is across the Don river from Rostov, while Taganrog is on the gulf of the same name ten miles west of Rostov.

The announcement of the official news bureau says that the capture of General Kaledines have invited the mayor of Rostov to go to Novorossiysk, the capital of the Don territory, to discuss the suspension of military operations. The mayor of Rostov probably is a member of the Bolsheviks, agents of which organization were reported several days ago as having been sent into the ranks of Kaledines' Cossacks to spread extremist propaganda.

The people of Germany are reported to be looking forward to a supreme German effort on the western front.

NAVAL COUNCIL
WILL SUPERVISE
THE OPERATIONS

(Associated Press Telegram)
Washington, Dec. 15.—Co-ordination of the naval resources of the governments at war with the central powers as decided upon at the inter-allied conference at Paris was viewed here today as one of the first important moves towards a general consolidation of allied military strength.

The decision to establish a naval council to supervise in an advisory capacity the naval operations of the allied fleets, was announced to Secretary Daniels in a cablegram last night from Admiral Benson, ranking American naval representative at the conference. Meetings will be held in Europe. Flag officers will represent both the United States and Japan.

COMMANDED U. S.
DESTROYER SUNK

Lieut. Commander D. W. Bagley.

Latest advices say that Lieutenant Commander David Wort Bagley, brother-in-law of Secretary Daniels of the navy, escaped when his ship, the destroyer "Jacob Jones," was torpedoed by a U-boat. First reports of the sinking said he had been lost.

THOUSANDS OF MEN
VOLUNTEER IN THE
REGULAR SERVICE

(Associated Press Telegram)
Washington, Dec. 15.—Secretary Baker today came to the relief of the thousands of men who have volunteered for the regular army, but have been rejected because of the break down of the recruiting machinery by ordering that all qualified applicants who presented themselves before noon today should be accepted even though their examination and other details could not be accomplished until later.

Thousands of men, seeking to volunteer, before the new draft regulations went into effect at noon had been turned away because the recruiting stations were swamped.

Washington, Dec. 15.—The war department's huge task of classifying the nation's man power for army service actually began today with the mailing out of the first five per cent of the questionnaires. At the same time recruiting facilities throughout the country, already over taxed with recent enlistments, threatened to give way before the rush of draft registrants eager to avail themselves of the last chance to volunteer.

Recruiting officers in many sections found themselves without means of accommodating thousands enlisted yesterday, and the stream which continued to apply. The discharge of many forced upon recruiting offices means that some men of draft age will fail in their efforts to enlist before noon today after which they may join the regulars only in their status as members of the national army.

It was announced, however, that men who do not get into the regular army through no recruiting stations before noon may do so later through their local boards. Their applications will be acted upon immediately but they will appear on the rolls as members of the national army.

The mailing of questionnaires will (Continued on Page 9, Col. 2.)

PARENTS OF THE
DEFENDANT WILL
TESTIFY TODAY

(Associated Press Telegram)
Wauson, O., Dec. 15.—Daniel Lehman and his wife, father and mother of Fred Lehman, will be among the first witnesses called by the defense in the Lehman murder trial here today.

This announcement was made this morning by Attorney Fred Fowler of the defense, following persistent rumors that the Lehmans would not be called by the defense.

Weather conditions held up court this morning. The government thermometer registered 13 degrees below zero. Not a witness had reported at 9 o'clock. All witnesses are farmers, some residing miles in the country, and the extreme weather makes it difficult for them to be in court on time.

When court finally convened today, Clyde Hall, brother of Grace Lehman, went on the stand. He said he had seen Fred visit Alcy Fenton a number of times.

Hall told of being at the home of his parents in Swanton on the Saturday night before the murder. He said Grace was there. He said he told Grace he saw Fred drive south. Grace immediately started out to search for her husband, he testified. Later in the night, Grace and Fred came back together.

Clyde said he heard Grace say Fred was not home, but Fred gave no answer. On the morning after the murder, Clyde said he was at the Lehman home and saw no signs of a scuffle near the barn, where the defense claims Fred was attacked by bandits.

Capital Throw Little Light
On the Military Situation

(Associated Press Telegram)
Petrograd, Dec. 14.—(Delayed.)—Charles S. Smith of St. Louis, Md., a member of the staff of John F. Stevens, head of the American railway commission to Russia, is reported to have been arrested.

Mr. Smith is reported to have been arrested at Tchita, Siberia, in company with M. Oustrouloff, former assistant minister of railways.

Ambassador Francis has telegraphed to the American consuls at Harbin and Vladivostok to intervene. At the Smolny Institute, the Bolshevik headquarters, it was stated that if the American had been arrested it was a mistake and he would be immediately released.

Mr. Stevens is the father of Donald F. Stevens, division superintendent of the Baltimore and Ohio railroad, with headquarters in this city, and who has been in Petrograd for a number of months, having been sent there by President Wilson as the head of the American railway commission to Russia.

(Associated Press Telegram)
London, Dec. 15.—Press dispatches from Petrograd throw little light on the military situation in southern Russia. The official statements issued in Petrograd are confusing and there are various reports regarding General Kaledines and General Korniloff, whose present whereabouts and fortunes are not known definitely. "The fog of war has settled down over all the Russias," says the Petrograd correspondent of the Post, although very little actual warfare has developed.

Such news as can be obtained comes casually, as regular means of communication have been disorganized, but to intelligence from different parts of the country conditions are entirely those of war.

The people of Petrograd are said to be more interested in the attitude of the Bolsheviks toward the constituent assembly than in the Russo-German negotiations or civil war in the south. The Bolsheviks are still represented as being determined to prevent the constituent assembly from taking on any complexion except a reflection of their own views but there apparently is a sharp disagreement among the leaders as to the methods and angry discussions are reported to have occurred.

All advices agree that that force is the only law in Russia today and the strongest force for the moment is wielded by the Bolsheviks under the guidance of Lenin and Trotsky, who are said to have established a despotic regime against which many of the Bolsheviks are murmuring.

The same correspondent points to supposed indications of the intention to restore the monarchy. Lenin, he says, is "an invisible mystery," inaccessible and closely guarded, having given up making speeches, and is now shunning publicity. Trotsky, on the other hand, speaks frequently and is very accessible. It is noted that although the German and Austrian governments announced the resumption of armistice negotiations on Thursday and their adjournment until Friday, the Russian commissaries issued no report regarding these developments, notwithstanding their statements that they would take the world into their confidence as to the progress of the happenings in Brest-Litovsk.

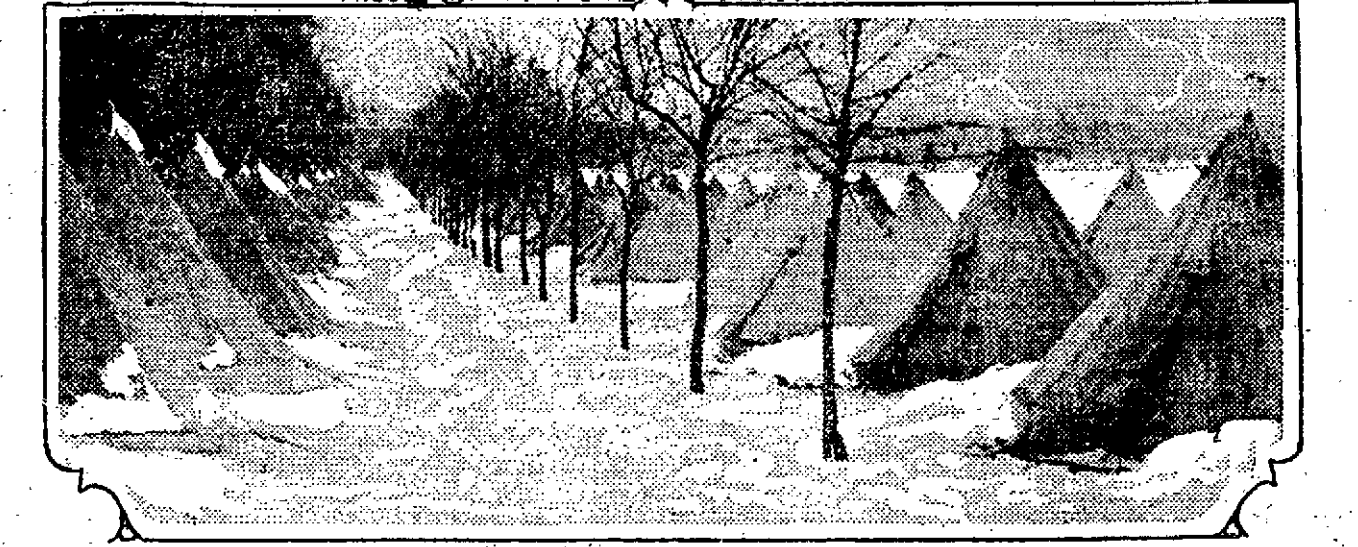

Lord Robert Cecil, minister of blockade, in his weekly talk with the Associated Press, replying to a question in regard to recognition of the Bolshevik government of Russia said:

"We shall gladly recognize any government which we believe represents the Russian people, either de facto or de jure. We are not yet (Continued on Page 9, Col. 5.)

COL. ROOSEVELT
WAS VISITOR AT
CAMP SHERMAN

(Associated Press Telegram)
Camp Sherman, Chillicothe, O., Dec. 15.—Every minute of the four hours Colonel Theodore Roosevelt spent at the national army camp here today was in demand. The former president arrived at the big camp shortly after 11 o'clock from Cincinnati, was met by Major General E. E. Glenn, the commanding officer, and was driven about on an inspection of the camp.

At noon the colonel lunched with staff officers at division headquarters and later informally addressed all of the camp's officers in the Y. M. C. A. auditorium. He did not talk to the drafted and enlisted men.

When the people of Halifax were able to give a minute to sightseeing after the blast which wrecked the northern section of the city they looked across the harbor to the Dartmouth side and saw the remains of the Belgian relief ship Ioma aground, a sinister reminder of the explosion. Wreckage which is evidently parts of the Mont Blanc has been found on the Halifax shore. In North Common relief workers have set up a miniature city of tents in the snow, where survivors are being housed.

QUICKLY FINANCE
THE CAMPAIGN FOR
SUFF RESOLUTION

(Associated Press Telegram)
Washington, Dec. 15.—Election of officers, the principal business before today's session of the annual convention here of the National American Woman Suffrage Association, was almost a perfunctory proceeding as the result of the renomination yesterday without opposition of nearly all the present officers.

The sole position in contest today was that of treasurer which is sought by Mrs. Henry Wade Rogers of New Haven, Conn., and Mrs. Gifford Pinchot of Washington.

To finance the campaign for the passage of the federal suffrage resolution the convention quickly raised \$120,000.—Mrs. William Thaw, Jr., of Pittsburgh, contributing \$10,000; Mrs. Robert Gould Shaw of Boston, \$5,000; the Leslie Woman Suffrage committee, \$13,000, and Mrs. Stanley McCormick, \$20,000. Contributions of \$1,000 each were made by Mrs. C. M. Joseph Fels, Mrs. V. Everit Macy, New York; Mrs. Wirt Dexter, Boston; Mrs. Arthur Ryerson, and Mrs. Cyrus H. McCormick, Chicago.

While the association voted to actively participate in the congressional elections next year if the suffrage resolution fails of passage at this session, leaders were so confident that the resolution would be adopted at this session that it was decided to close the headquarters in Washington and establish them in some central city—probably Chicago or St. Louis—from which to conduct the campaign for state ratification of the amendment.

BOSTON PITCHERS
ENTER THE NAVY

(Associated Press Telegram)
Boston, Dec. 15.—Two more members of the Boston American league baseball team enlisted in the navy, it was learned today. Pitchers Pennock and Barber signed as yeomen, it was said at club headquarters, making eleven members of the team who have joined the Nation's first line of defense.

CHAMPIONSHIP CUP WON
BY RESIDENT OF FREMONT

(Associated Press Telegram)
Toledo, Dec. 15.—Michael Wagner, Fremont, short-horn breeder, won the championship cup at the National Farmers' exposition for the best herd of cattle. Parkwood Farms, Sylvania, O., was second; L. E. Carson, Grand Rapids, third; Keith C. Hoover, West Toledo, fourth; A. S. Bolan, Fremont, fifth; L. E. Carson & Son, "Dixie Bull," sixth. The championship bull prize, a two-year-old Holstein heifer owned by the Hazeldell farm won first cow prize. She was bought by the Wolf Brook Farm, Monclova, O. Her record is 60 pounds of milk a day and 20 pounds of butter a week.

EXPECTED TO ASSIST
WASHINGTON, DEC. 15.—Internal Revenue Commissioner Roper announced today that persons buying admission tickets to amusements would be expected to assist the government in enforcing the war tax law by inspecting their tickets. The tax is one cent on each ten cents admission or fraction of that amount.

Theatre goers should scan their admission tickets to see that they bear evidence that the tax has been paid.

ORDERS FOR COAL
MUST COME THROUGH
C. OF C. COMMITTEE

To insure the equitable distribution of coal and other fuel in Newark it has been deemed advisable to have all orders for coal heretofore placed with the local dealers come through the office of the Coal Administrator's advisory committee. This office is under the jurisdiction of the United States coal administrator.

The office is located at 20 1-2 N. Park Place in the room loaned by the Chamber of Commerce. The telephone is: Auto 1675, Bell 258.

Mr. Walter Stage is in charge of this office and will do everything he can to take care of the serious wants of the public. There has been a number of complaints that consumers are hoarding coal and asking for it before it is actually required. The dealers have very strict instructions not to deliver more than one ton to a customer, and to report cases of coal hoarding to this office. The committee is urging the public to co-operate with them in their efforts to avoid such hoarding.

\$1,000,000,000 OUTSTANDING.

(Associated Press Telegram)
Washington, Dec. 15.—The last block of certificates of indebtedness amounting to \$685,000,000, issued to prepare the way for the second Liberty loan, fell due today and were met largely out of a 40 per cent payment on the second loan, also due today. About \$1,000,000,000 is outstanding on the second loan.

JUDGE STATES A
SUNDAY VERDICT
WILL BE LEGAL

(Associated Press Telegram)
Concord, N. C., Dec. 15.—Indications were that the trial of Gaston B. Means, accused of the murder of Mrs. Maude A. King, might include a session tonight in hopes of the case reaching the jury before adjournment of court over Sunday. This was expected because of a ruling yesterday by Judge Cline that a verdict returned by the jury on Sunday would be legal.

The final argument for the defense by E. T. Canister of Charlotte, interrupted yesterday by the adjournment of court, was concluded today. After Mr. Canister's address, final argument for the state was to be made.

SAYS BASEBALL WILL
BE MORE POPULAR
AFTER WORLD WAR

(Associated Press Telegram)
New York, Dec. 15.—Holding that baseball is such an important factor in American life that it is "indispensable," John K. Tener, president of the National league in his annual address to the organization last Tuesday, made public here today, urged the owners to maintain just as high a standard of play as possible during the war. He declared himself confident that by "fostering, protecting and advancing the game" baseball would be more popular than ever after the war.

With respect to the interest the American people will take in their national game next year, he said, "I do not hesitate to express my confidence in their loyalty and attachment to it. It is my firm conviction that the interest is inherent, that it will be made manifest at the proper time and that you should make provision to cater to it with very little less detail, care and attention than in former years."

PROCLAMATION URGES
PEOPLE TO ENLIST IN
AMERICAN RED CROSS

(Associated Press Telegram)
Columbus, Dec. 15.—In a proclamation issued today Governor James M. Cox urges the people of Ohio to respond quickly to the call for enlistment in the American Red Cross which is seeking to secure fifteen million new members by Christmas Eve.

"Let me as governor of the state of Ohio," the proclamation says, "respectfully urge the people of Ohio to respond quickly to this call for the mobilization of a civilian army of 15,000,000 patriotic men and women, so that the eve of Christmas will find Ohio has again taken noble advantage of an opportunity for service."

"Let us think how glorious it would be to have every home in Ohio recognized as an American Red Cross Home."

The campaign for members will begin on December 17 and will last for one week.

In this proclamation the governor declares that enlistment of the required number of new members "will notify our enemies that the American people stand solidly behind the American government."

Continuing the proclamation says: "The president of the United States is at the head of the American Red Cross. Authorized by congress, its accounts officially audited by the war department, this organization is working for our army and navy; it is assisting the allies; it is endeavoring to help us. It provides hospital and hospital auxiliaries with supplies; it is carrying on a consistent and extensive relief work in stricken countries; it is helping destitute families of French soldiers with more than a million dollars and has given an equal amount to the British Red Cross."

COAL SHORTAGE
IS RESPONSIBLE
FOR SHUT DOWNSThousands of Men Thrown
Out of Employment
Over StateWEATHER INDICATIONS
A RISING TEMPERATUREMay Greatly Facilitate Rail
Transportation and Quick
Coal Shipments

(Associated Press Telegram)
Columbus, Dec. 15.—Thousands of Ohio men were out of employment, temporarily, today because of the coal shortage in this state, and indications were that other thousands would be laid off tonight and tomorrow unless certain sections of the state obtain an immediate supply of coal.

The federal fuel administration in Ohio was doing everything possible today to obtain coal and rush it to the points affected most. It was pointed out that the weather prediction today is for rising temperature, indicating an end to the cold wave. This, the authorities say, will greatly facilitate railroad transportation and will enable larger and quicker coal shipments.

The fuel administration, with headquarters here, today was seeking to obtain all of the coal possible that has been consigned to the northwest but that has been held up at lake ports or in transit by the closing of lake navigation.

In spite of the strenuous efforts being made to alleviate the suffering demands for immediate shipments of coal reached the state and federal authorities from every section of the state.

In Cleveland 100,000 men were reported to be out of work because the Cleveland Electric Illuminating company was out of coal and had to close down, thereby closing many manufacturing plants, many of which are working on war munitions.

Announcement was made in Cincinnati that the street car company will have to suspend tomorrow noon unless it obtains a supply of coal in the meantime. Scores of other businesses were affected by the coal shortage and schools and churches all over the state have been forced to close their doors because of a lack of heat.

Governor Cox announced today that he has accepted the invitation of Senator Reed of Missouri to appear before the senate manufacturers' committee to tell of the Ohio coal shortage. The committee hearing is said to be the first step in a federal investigation of the Ohio coal situation.

In Columbus, the Ohio State University is still closed down. There have been no classes this week and there has been some talk of keeping the university closed until after the Christmas holidays because of the state's inability to obtain coal. Even some of the state offices have had to suspend work or move to other quarters because the employees have been unable to keep warm.

With the coal shortage still acute, Ohio had another touch of cold weather last night, the temperature in southern Ohio falling below zero. Cincinnati was the coldest place in the state this morning, the weather reporting a temperature there of six degrees below zero. It was two below at Dayton, one below in Columbus, six below at Cleveland, and four above at Toledo.

In a telegram declaring that Cleveland schools, hospitals, and other utilities will have to close unless they obtain coal immediately, Governor Cox today pleaded to federal authorities for a priority order which would permit quick coal shipments to Cleveland from eastern Ohio.

The telegram was addressed to R. F. Lovett of the priority committee at Washington. It read:

"Cleveland, probably the largest center in this country, suffering for want of coal. Unless something is done public schools, hospitals and other utilities must close. The No. 3 vein-coal mines are not far away. If you will authorize priority order for transportation of coal we believe we can send several trains there at once."

"If you could look in upon the (Continued on Page 9, Col. 3.)

LIGHTLESS NIGHTS
IS LATEST ORDER OF
FUEL ADMINISTRATOR

(Associated Press Telegram)
Washington, Dec. 15.—A striking reminder of America's participation in the war will result from an order of fuel Administrator Gortlieb, published today, requiring the darkening on Sunday and Thursday nights of electric display and unnecessary street lighting. The first "lightless night" will come tomorrow, when the white ways of many cities will be dimmed as a conservation measure to relieve the heavy drain on the nation's coal supply. The new order replaces one ordered in effect a month ago requiring a partial curtailment of electric advertising.

WOMAN MISSING FOR TWO WEEKS RETURNS HOME

Mrs. Frances Burdette Purdy of Martinsburg, has just returned after having been mysteriously missing since November 28th. Mr. Noah Purdy, her husband, confident that the young woman had met with foul play, attempted to locate her through the police department of this state and adjoining states but she has returned to Mr. Verda and is now at the home of her parents, Mr. and Mrs. T. L. Pumphrey, before going back to the village of Martinsburg.

Sheriff Mossholder of Knox county received a telephone message from Utica from a man who neglected to apprise the sheriff of his identity.

FRANCES BURDETTE PURDY

that Mrs. Purdy was on the train that reaches here at 10:40 o'clock. The sheriff telephoned to Mrs. Purdy's father and he met the train, his daughter meeting him as she stepped from the car.

Mrs. Purdy refused to discuss her mysterious disappearance on Nov. 28 or her experiences since that time until her return home when interviewed by the reporters. "You may tell my friends that I'm at home and that I'm all right," was her only remark.

Asked as to her whereabouts during her absence, Mrs. Purdy said: "I suppose there are plenty of people who would like to know, but I don't consider it any of their business."

Mrs. Purdy says that as yet no plans have yet been made concerning her returning to her home near Martinsburg with her husband.

DROPPED DEAD WHEN CONFRONTED BY WIFE NO. TEN

Newburgh, N. Y., Dec. 15.—Samuel Oakley Crawford, one of the cleverest characters in modern criminal history, is dead today following a stroke of heart failure while gazing at his tenth wife.

Better known as "Rev. Arthur Worthington," Crawford, who was 72, began his career of crime in 1868, one year after he was graduated in law from Columbia University.

Up to the time he had obtained the pastorate of a church, he had posed as lawyer, banker, political orator, licentiate, real estate operator, spiritualist, organizer, free love exponent, Christian Science healer, insurance agent, judge, captain, major, colonel and general in the regular army, Unitarian minister, Mormon preacher, actor, prohibition lecturer, and a member of a long list of various cults.

From the ten women he married, he obtained sums of money estimated in the hundreds of thousands of dollars. Nearly all of his wives were wealthy and he invariably deserted them as soon as he had obtained their confidence and their money.

At one time he established a religious cult in New Zealand, but was soon forced to flee. The same experience awaited him at Tasmania. While in Melbourne he was jailed for forgery and served seven years. The end came when confronted by Mrs. Jennie A. Snowditch of Wilmington, Del., who identified him as the man she had married in July, 1916, under the name of "Charles Graham Boone."

Two months later, she said, he decamped with all her savings, \$2,500. When she appeared before him in the jail here, he gazed at her for a moment and then sank to the floor with a groan. He was dead before a physician could be summoned.

WEST NEWARK

Mary Kolp is able to be out again after a serious attack of pneumonia. Mr. and Mrs. Arthur Patrick announce the birth of a son.

H. M. McGinnis is suffering with a deep cut on his hand received while at work at the Buckeye Rolling Mill.

There will soon be preaching services at the West Side Church of Christ.

Mr. and Mrs. B. M. McGinnis recently visited at the home of their son, H. K. McGinnis, the latter undergoing a recent operation.

Mrs. Sarah Taylor is recovering from an illness and is able to be out. Walter Hendron visited his grandparents Saturday and Sunday.

MASS MEETING OF THE YOUNG PEOPLE

There will be a mass meeting of the City Union of Young People's societies Sunday afternoon at 5 o'clock at the First Baptist church in North Fourth street. The Rev. Mr. Harbert will address the meeting. There will be special music by the Baptist members. All societies are urged to be represented. The public is cordially invited.

TO TAKE CARE OF AMERICANS WHO DIE IN BATTLE

(ASSOCIATED PRESS TELEGRAM)

With the American Army in France, Dec. 14.—The organization has been announced of a branch of the army whose sole duty is to arrange for the proper burial of "our" soldiers who die in France and for the care of their graves. Every detail has been worked out and the American organization is expected to surpass similar organizations in the British and French armies, as the best features have been taken from both. The new organization is known as the "Graves Registration Service." It is under the direction of a regular army major and is a division of the office of the chief quartermaster and through that office is directly responsible to General Pershing. The service chief also is superintendent of all American cemeteries in Europe and as such is responsible for their proper care and maintenance.

A unit of two officers and fifty men is provided for each army division. They are to arrange for proper burials in their respective divisions and also to take care of the divisional cemetery. The size of the units is to be increased if the needs demand.

There also is a headquarters detachment in command of a colonel, and reserve battalions to be available for detachment with immediate assignment where needed.

The American expeditionary force has been assigned, and by the French authorities for use as semi-permanent or temporary cemeteries, and officers have just returned from a trip through the country locating cemeteries which may be used wholly or partly for American dead. Already two large burial plots have been fenced in and posted, and a number of small ones arranged near the front as temporary resting places for the bodies of Americans who may be killed in action.

Each grave in the main cemeteries will have a cross at the head and an iron marker. Temporary graves will be marked by pegs and a cross or other head stone. On each side there will be an identification tag and a card giving the soldier's rank, the organization to which he belonged and the circumstances of his death, which information will be forwarded immediately to the record office where the records will contain the location and a picture of the grave for the benefit of relatives.

There will be a continual inspection of all cemeteries to make sure that they are regularly kept. The personnel of the service as is the case in other special branches of the army, has been selected with a view to its experience and qualifications.

Many men who were undertakers in civil life have been transferred to where they can give the most efficient service. One of the ranking officers did similar work in the Philippine Islands where the campaign closed without a single dead soldier being unidentified.

Many villages and parishes in this section of France also have set aside plots for any American dead and those graves already occupied have been cared for tenderly by the French as well as the Americans.

CHANGE IN DATE OF MRS. WHITE'S TALK

Notice advance of date. for Mrs. White's talk on the Symphony program, High school auditorium, from December 13 to December 17th at 7:30. Monday. Ticket holders are invited.

Elsie Hirschberg Deermont will lead the audience in the singing of the "Star Spangled Banner" accompanied by full orchestra Wednesday evening, at the close of the Symphony program. LET OUR CHRISTMAS CLUB SERVE YOU

These are times when we must all get a new conception of saving.

We need to save to buy Liberty Bonds, to contribute to all of the nation's war activities.

We need quite as much as ever to save to protect our own future and to provide for special needs.

We must learn to save far more than ever before.

Our Christmas Money Club provides the most practical means of saving a given sum for any purpose.

Thousands of Newark people have used the Club not only for Christmas saving, but for accumulating money to pay debts, to meet obligations or interest payments, to pay taxes or insurance premiums, and to accumulate money for their future protection.

NEW DIRECTORY IS ATTRACTIVE

The new city directory is now being distributed by the publishers, R. L. Polk & Company, and as stated in yesterday's issue discloses that Newark now has a population of 32,361. It is bound in an attractive, yellow color in contrast with the green of 1915, so as to make a distinction in the issue. There is also an increase of 15 pages over 1915.

So far as possible the names of all who are now serving their country as soldiers or in any branch of the service have been included with the list of names with their home address, so far as returned by their parents.

The introductory comments upon the part which Newark has taken in the stirring events that have transpired during the past year from a financial and military standpoint.

The first name in the book is Mrs. A. L. Abbott and Theo. Zwermerman closes the list.

As usual the grand family of Smith lead in numbers, 155 of them, followed by the clan of 85 Browns. Spring, Summer and Winter are there, but no Autumns, though to make the Winter a little harder to bear, there are several Blizzards. The family of nations is represented by Africa, the English, Irish, Deutsch, Scots and De France. The shortage of dyes need not be felt in Newark as there are Browns, Blacks, Greens, Rose, Grays and other colors that can be pressed into service.

LOOK, MR. HOOVER THIS MAN'S CHEATING

Dallas, Tex., Dec. 15.—"A little more sugar, please," a customer asked a waiter in a Dallas hotel, when served but two cubes of sugar with his coffee.

"Sorry, but we can only serve two lumps with each cup."

"Then give me another cup of coffee."

And the customer, "took the additional lumps, sweetened the first cup of coffee to his satisfaction and left the second cup untouched."

PERRYTON FARMERS' INSTITUTE DEC. 20

J. L. BUCHANAN, Carroll County.

USES MODERN EQUIPMENT
AND METHODS IN FARMING

Has Lived Forty-Four Years on Farm—Raises Purebred Live Stock.

One of the lecturers at the coming farmers' institute is J. L. Buchanan. He has had thirteen years' experience as a farmers' institute lecturer. By his up-to-date methods he has more than doubled the production of his farm.

Mr. Buchanan raises Percheron and Morgan horses, registered cattle and swine. He bases his talks on his work as a stock raiser. Because of his long experience, his topics are presented in a way that is very helpful to farmers. Some of the topics which he discusses are "Why Better Live Stock," "Live Stock on the Farm," "The Farmer's Cow" and "The Horse."

The religion of the pessimist is based on the belief that most things are too good to be true.

ORGANIZING LICKING CO.

Fifty representative men of Newark met Thursday night and laid plans for a county-wide war-work organization, which is to reach into every precinct of the city and every school district throughout the county. When the organization is perfected it will number not less than 500 leading men of the county who are pledged to devote their best effort and energy towards winning the war.

There is no doubt that the folks back home have a duty just as important as that of the men who go to the front. It is buy no means as hard a task, but it is highly important. That task consists of providing the sinews of war, of feeding and clothing and caring for the soldiers and the sailors, and providing the things needed by the government in the prosecution of the war.

While Licking county has responded promptly and generously to every appeal thus far made, has oversubscribed both Liberty bonds and the Red Cross fund, and has given the amount asked in the two Y. M. C. A. campaigns, it is a fact nevertheless that the giving has been done by a small fraction of our people. Thousands have not yet been reached and it is decidedly unfair that the giving should all be done by a few.

The fact is that a considerable part of our people do not as yet realize that we are in a great war. They know that the United States is at war with Germany and Austria, but they look upon the conflict as being "over there" and altogether foreign. The first great job that confronts the new county organization is to arouse the people to a realization of the situation and to make the whole community appreciate the size of the job that lies ahead. If every man and woman in Licking county had as clear an understanding of the war situation as the fifty men who met at the Chamber of Commerce Thursday night it wouldn't be necessary to organize whirlwind drives to raise money for the Red Cross or the Y. M. C. A., or to solicit people to buy Liberty bonds or Thrift stamps. The people must be reached in small groups and made to understand what is going on and what is expected of them.

The immediate demand is support of the Red Cross in its annual membership drive. All of the 1917 memberships expire at the end of this year and the organization would like to enroll every person in the county. The fee is \$1 for the year's membership. Next is the Thrift stamp campaign highly important both to the individual and to the government. It ought to take no argument to induce one to buy Thrift stamps and war-savings certificates because in buying these new war

GO TO CHURCH TOMORROW

"I was glad when they said unto me, 'Let us go into the house of the Lord.'"—Ps. 122: 1.

Glad of the opportunity to go to church! "Poor man," some people would say, "what did he want to go to church for? Why did he not order out his limousine and take a Sunday jaunt? Why did he not ring up the news dealer and have a boy bring him a Sunday newspaper to relieve the monotony of Sunday? Why did he not summon his friends to a Sunday dinner? Couldn't he doze in comfort by his own fireside? Glad to go to church! Who was this man with such peculiar inclinations? Was he 'nutty'?"

He was a great Hebrew poet who composed some of the sweetest songs that have ever reached the ears of the world; and their music is still finding its way into the hearts of men and women the world over.

There must have been some substance and lasting worth in them compared with "the ephemeral diluted literature" which the clever modern critic of the church waters down and weakens his mind. How many men live three thousand years after they are dead? Who among our greatest authors will be alive after three millenniums? The Psalmist was glad to hear that it was church time, and the Psalmist was neither fool nor simpleton.

Some of the world's brightest men have been glad to go to church; some of the world's biggest and greatest men have always gone to church. Gladstone, Washington, Lincoln, were habitual churchgoers. Every president of the United States has been a churchgoer. Church going has been, is, and will be a tremendous fact in the world's life. We are in good company, in a good place and on the right road in life when we go to church. Let us go into the house of the Lord tomorrow.

BEGIN NOW.

Governor James M. Cox this week enlisted his support in the Ohio campaign for the sale of war-savings stamps. He urges all Ohio people to meet their government's requests to buy either Thrift stamps or war-savings stamps, or both. His statement follows:

"The very smallness of the cost of the war-savings stamps must bring everyone to the realization that no sacrifice is too minute to help win the war. Denial of some small luxury and the purchase of a stamp makes it possible for all of us to aid the cause to which this country is pledged.

"Citizens of Ohio subscribed generously to Liberty bonds. Those people who bought bonds are expected to buy war-savings stamps. Those who did not buy bonds, because of financial inability, surely will be able to aid their government by purchasing war-savings stamps, when an amount so small as 25 cents will be accepted.

"This is a period of self-sacrifice for every man, woman and child in the United States. For our country successfully to prosecute the great war, it is necessary that its citizens render unqualified support—both moral and financial. War-savings stamps furnish the medium by which all may assist.

"Ohio's allotment of war-savings stamps is \$106,000,000, and let everyone come forward and take his share."

Licking county's share is \$1,100,000. If necessary begin with one 25-cent stamp. The important thing is to begin.

RIGHT KIND OF TALK.

(Brooklyn Eagle.)
Whenever you hear a pessimist express a doubt as to the outcome of the war and solemnly give it as his conviction that Germany cannot be licked, fire at him the message sent to this country by General Pershing through the medium of Bishop Luther B. Wilson of the Methodist Episcopal church: "Tell them (the American people) that there is no ground for the heresy that Germany cannot be beaten. Germany can be beaten. Germany must be beaten. And Germany will be beaten."

Spoken like a true American! General Pershing is looking at the war close up. He has observed the strength of Germany in the field. He has observed her weakness. Shall we prefer his judgment or shall we prefer that of the chronic gloomsters, kickers and disgusted German sympathizers who have little or no faith in the power and purpose of the United States of America and its allies?

Most of us believe in Pershing because Pershing believes in his country.

VOICED POWER OF NATION.

(Louisville Courier-Journal.)
Woodrow Wilson by his State papers since the war began has won the world's recognition of pre-eminence as a lofty thinker and lucid writer, and in none of his previous expressions has he displayed more impressively consecration to exalted ideals and the strength and courage which such ideals should inspire. He commanded more happily the power and clarity of conveying them which distinguishes his writings. Tuesday, as he stood before Congress, he voiced the calm, indomitable power of the Nation in words and in a spirit which find an invincible response in every American heart and in every democratic brain throughout all the world that has called a halt on Kaiserism. Truly this man seems to have been raised up to lead us in this supreme crisis.

THE HOLY CITY.

(Philadelphia Record.)

The modern crusade has delivered the Holy City from the Moslem, and the Crescent will never float again over the city revered above all other spots on earth by the entire Christian and Jewish world. In the redistribution that will follow the war, Jerusalem may be given to the Jews. If it shall be held that Zionism is practicable, and as an autonomous province under international protection there is no reason why it should not be. At any rate, the Crescent has set, never to rise again in the Holy Land. The Mosque of Omar must be removed from the side of the temple.

The German military experts may pretend that Jerusalem is of no strategic importance, but that is only an effort to keep up the courage of the German people. The fall of Jerusalem is the premonition of the fall of Germany. Turkey's part in the war was to take the Suez Canal for the Kaiser. It failed to do that. When the Turkish capital was menaced by the allied attack on Gallipoli Germany had to go to the rescue of Turkey. But now that an English army is advancing up through Syria and no help comes from Germany, the Kaiser has no forces to spare. He is fighting desperately to avert defeat in Italy, Champagne and Flanders. He can't help his victim.

The Turks are not a large nation. In fact, recent statistical estimates allow only 6,000,000 Turks and 8,000,000 Arabs in the Turkish empire, and if this includes the Arabs of Arabia, a large part of the 8,000,000 has declared its independence of Turkey and set up the kingdom of the Hedjaz. It is impossible that so small a population should supply a great army, and the Turks have suffered heavily in the Balkan war, the Tripolitan war and this war. The two British armies in Mesopotamia and Syria have killed and captured large bodies of Turkish soldiers, and there is no reason why the British advance to Asia Minor and then through it to Constantinople should not be continuous. The advance would be slow, because roads are bad and means of transportation scanty; but the fact that Jerusalem was surrendered is evidence of the inability of the Turks to offer serious resistance.

Nearly two years ago the Russians reached Erzingan in their westward advance from Erzurum. At that point the German traitors in the Russian Government succeeded in paralyzing the Russian armies, and no advance has been made since. Constantinople has been in the hands of Russia in six months; now it is a question whether there is going to be any Russia. But one British army is advancing up the Tigris, and another northward through Syria, and neither encounters very serious resistance, and as the Turks cannot replace their losses each defeat leaves them weaker than before. Furthermore, after advancing a moderate distance the British troops will find the railways an important adjunct. British troops may yet deliver the city of Constantinople to the Allies, and the Holy City, from the Turks. Wilhelm II has dreamed of Bogdád and the Persian Gulf and the Suez Canal and the advance on India to a very painful reality.

KEEP THE COAL MOVING.

(Pittsburgh Gazette-Times.)
The dispute between the federal coal administrator and the governor of Ohio raises a question which has agitated the minds of many persons who have suffered from lack of fuel in the midst of an apparently plentiful supply. Governor Cox seized coal only nominally on its way to destination. Whole trainloads of the fuel consigned to northwest points stood for days on sidings while Ohioans shivered and could get no coal. The ethics of his action seem unimportant beside the fact that the coal was put to use and as far as has been disclosed, without interfering with its delivery to those for whom it was intended. It was stalled and adding to the railroad congestion. Surely unloading the cars was a service to the general public as well as to those Ohioans who were provided with necessary warmth. The empty cars could be returned instantly to the mines where they are so much needed and, freshly loaded, be consigned to the northwest, whose supply we are so sure to believe would be in no wise delayed by the diversion of the original shipment.

Of course, this upsets the whole scheme of the fuel administration, but if the scheme was not working out to general benefit what harm has been done? This Ohio eruption gives point to the demand of Senator Henry Cabot Lodge, agreed to by the senate, that an investigation of the coal shortage be made by committee on commerce. The more threat of an investigation conceivably will have the effect of spurring those responsible for the distribution of coal to greater efforts to supply the needs of the people. Some of those now suffering would then get relief. It would be well if seizures of coal in transit could be avoided. It is up to the fuel administrator to lay his plans so they will not be necessary.

SPEEDING THE WAR.

(Ohio State Journal.)
Secretary Baker says we must speed up in our war preparations. That is the general impression, too, but public opinion is so kindly disposed that it has not said so vehemently, because it does not want to seem critical. Another draft should be full under way, so as to immediately fill up the cantonments with a new set of soldiers. Unless we get more soldiers over on the west front soon, there is a chance that the allies will meet with some disheartening reverses. The Germans are increasing their forces there, and we are not. It is plain what the result will be, but the military professionals seem determined to make it more military than war. Maybe it is not too late to give Colonel Roosevelt the authority to raise and command a division. His sort of military genius is badly needed now.

SOCIAL EVENTS

SOCIETY EDITOR, AUTO PHONE 2112.

Mrs. Stanley Ross entertained at her home, Linden avenue, Columbus, Friday, with a kitchen shower for Miss Burdette Holtsbury. The marriage of Miss Holtsbury and Mr. Frank Moore will be solemnized this month. The bride-to-be is the daughter of Mrs. A. M. Solisbury of Bowers avenue, while Mr. Moore, whose home is in Columbus, is associated with the firm of Moore & Ross.

The Sigma Tau Society entertained a number of friends at the home of Miss Alberta Emmons. After many delightful games a delicious luncheon was served to the following:

Misses Ethel Jackson, Grace Dutton, Gertrude Harrison, Janice Thompson, Lillian Becker, Mary Montgomery, Beulah Nichols and Helen Winton of Dunth, Minn.; Messrs. James Orr, Clifford Sturgeson, Roland Freiner, Isaac Emmons, Herbert Hickman, Leo Baker, Max Asburn and Ralph Stowell.

The members of the Brightening Circle of The King's Daughters will be entertained at the home of Miss Carrie Zeitmyer in 175 West Main street on Monday afternoon at 3 o'clock.

A musical event of note was given in Alexandria on Friday evening at the Baptist church, by Mrs. Harold Rickert contralto and Miss Sara Stasel, piano and cello.

The concert was arranged for the benefit of the Red Cross, and a varied program of the more charming compositions was given. A nice sum was realized from the concert, which will be turned over to the treasury of the Red Cross for war work.

Announcement.
Announcement is made of the marriage of Miss Mary Carter and Mr. Archibald Davis, which was solemnized Thursday afternoon at the parsonage of the St. Francis de Sales church. Rev. Father B. M. O'Boylan officiating. The bride's home is west of the city, while Mr. Davis is the son of Mr. and Mrs. Archibald Davis of Hudson avenue. He enlisted this week in the signal corps of the aviation department and leaves in a few days for the west.

THE COURTS

Taken Under Adversity.
In common pleas court the court heard the remainder of the evidence in the case of Guy Bagley vs. Clara Bagley, a suit for divorce. After hearing the arguments of counsel, the court stated that he would take the case under advisement, and announce a decision hereafter.

The Pratt Law.
County Auditor Fred S. Wilson has received notice stating that a law will be passed to prevent the killing of sheep by dogs. The notice said that allowing dogs to waste food in this way would be committing one of the worst crimes possible and that the sheriff would have full control to file an affidavit against unregistered dogs and dispose of them. The records show that seven sheep were killed last year, the approximate value of which was \$35.

To Have Beautiful Hair Use NEWBRO'S HERPICIDE

No woman can afford to be indifferent to the appearance of her hair. A mass of nice, wavy hair, becomingly dressed, will add more in genuine looks than a pretty face, or an expensive gown. Don't allow the scalp to become clogged with dirt and dandruff. Don't allow dandruff to destroy your hair. If your hair is uneven, dead, dull and brittle and comes out by the handful every time you draw a comb through it, dandruff is the cause. It is the real cause of the dandruff and the loss of hair. NEWBRO'S HERPICIDE will do this and at the same time put the hair and scalp in a sanitary condition. HERPICIDE appeals to those of greatest refinement on account of its exquisite odor, its purity and cleanliness. It contains no grease and does not stain or dye. There is nothing more dependable than this remarkable scalp prophylactic. The hair responds readily to regular and intelligent use of NEWBRO'S HERPICIDE.

Try it and see. Send 10 cents today to THE HERPICIDE CO., Dept. S, Detroit, Mich., for a sample bottle and a booklet telling all about the hair.

The Japanese influence is shown in this fashion. It is a smart, dainty, and is bordered with a Japanese design in various colors of silk. With a crepe de chine skirt and a large hat it is smart.

Milady's Boudoir

The Value of Deep-Breathing.
Deep-breathing is not the panacea it was supposed to be a decade ago when physical culture was a new thought and was, I believe, responsible for a decided change in women's clothes. With the old-style corset which came up to the chest, compressing the lungs, and the tight-fitting bodice, natural, automatic breathing for women was an impossibility. Today, from the waist up, a woman is practically as free, in regard to breathing, as if she wore no clothing at all. With no restrictions about the lungs or diaphragm, breathing becomes automatic. We breathe as deeply and as often as we need, to provide the blood with the necessary oxygen and get rid of the waste gases.

As a physical exercise deep-breathing is of value, and as means of waist-reduction and chest-expansion, it is to be warmly recommended. Exercising the trunk and lower respiratory muscles consumes excess fat and will make the waistline lower and smaller.

Deep-breathing also acts as a quick stimulant, overcoming fatigue, drowsiness or a chill. By driving the blood for a moment out of the lungs into the capillaries, it quickens circulation. It is also a wonderful steady to the nerves partly by equalizing the circulation, and largely by changing the direction of the mind.

Deep-breathing also increases the oxygen action of the blood, ridding the body of the poisonous carbonic acid. Like any exercise of the body muscles it improves the circulation and aids digestion. The best results are obtained, however, by practicing before an open window and with no restricted clothes at all.

WOMEN IN DRAMATIC ROLES

Famous Heroines in Various Shakespearean Characters, as Detailed by Noted Danish Critic.

The following characterizations of Shakespeare's women are from the pen of Dr. George Brandes, the famous Danish critic, the Philadelphia Inquirer states:

Katharine, "Taming of the Shrew"; high-spirited, self-willed, but lovable. Beatrice, "Much Ado About Nothing"; high intellect, combative, energetic, daintily witty. Rosalind, "As You Like It"; gay without a sting, sensitive and intelligent; loving passionately and being passionately loved. Viola, "Twelfth Night"; sound of understanding, emotional, deep and patient, with great power of passive love. Lady Macbeth, "Macbeth"; wicked even to the point of brutality under stress of passionate love and great ambition. Portia, "Merchant of Venice"; thoroughly genuine, almost masculine, yet most womanly in power of self-surrender. Helena, "Love's Labor Lost"; high-spirited type of loving and cruelly maltreated woman. Hamora, "Titus Andronicus"; powerful intellect, defiant of morality. Juliet, Romeo and Juliet; passionate love, yet under control of principle. Cordelia, "King Lear"; filial love, kindness of heart. Cleopatra, "Anthony and Cleopatra"; quintessentially erotic emotion chemically free from all other elements. Marina, "Pericles"; nobility of character. Isabella, "Measure for Measure"; spotless purity of soul. Imogen, "Cymbeline"; born for happiness, lured to suffering, calm, collected. Hermione, "Winter's Tale"; majestically lovable, grand and gracious simplicity. Ophelia, "Hamlet"; unobtrusive affection, devotion even to insanity. Miranda, "Tempest"; all that is admirable in woman, maidenly, immaculate. Desdemona, "Othello"; victim of jealousy.

FEEDING AMERICAN PRISONERS.

American prisoners of war in Germany are to be supplied with food and clothing by the American Red Cross. Already 1,800,000 rations, or enough to feed 10,000 men adequately for a period of six months, have been ordered. Food will be sent through to prison camps by way of Bernese Switzerland. In addition to the regular ration a special ration for invalid prisoners is being worked out.

OBITUARY

Harry H. McConnell.
Harry H. McConnell, aged 48 years, and a son of H. H. McConnell of 62 Smith street, this city, died at his home in Chicago, Thursday. Mr. McConnell was a well-known B. & O. conductor here for 14 years, leaving this city about eight years ago for Chicago. At the time of his death he was a railroad switchman in one of the yards there. Burial will be made at Chicago.

John L. Brill.
John L. Brill, aged 66 years, died at the Licking County Infirmary on December 12. Death was due to paralysis. Interment will be made on the farm.

Mrs. Fannie M. Harvey.
Mrs. Fannie M. Harvey, aged 72 years, died last evening at 6:30 o'clock, at her home, 48 Poplar avenue, having suffered for some time with a complication of ailments. Her husband died about three years ago. She is survived by a daughter and son, Mrs. P. S. Harvey of Columbus, William Harvey of this city, a sister, Mrs. Rebecca Myers of Clay Lick, and two brothers, David Smith of Flint Ridge, and James Smith of Plain City, O.

The funeral will take place Monday afternoon from the home, Rev. E. Kraft officiating. Interment will be made in Cedar Hill cemetery.

Miss Harriet Moore.
Miss Harriet Moore, aged 83, died at the home of Mrs. J. C. Southard of Elmwood avenue, Saturday morning at 3 o'clock. She was born at Utica, Ohio, where she resided until coming to Newark six years ago. She has been a life-long member of the Presbyterian church of Utica and is survived by seven nephews, three of whom reside in the west: James H. Moore, B. Fuller Moore, and Elva E. Moore of Newark, and Red Moore of Utica, Ohio. Funeral services will be held at nine o'clock Monday morning from the home of Mr. James H. Moore, 105 Clinton street. Interment at Utica, Ohio.

Banning N. Sigler.
Banning N. Sigler passed away at the home, 533 Hudson avenue, Friday afternoon, after a short illness of pneumonia. He had been afflicted with asthma for the past several years, but all during his sickness and suffering he was patient and had a pleasing smile and cheerful words for all who knew him. To know him was to love him. Until eight years ago Mr. Sigler was actively engaged in business. For a number of years he ran a general store in Homer, and was also postmaster. The last few years of his business life he was connected with the Logan Gas company as superintendent of lease-hold department with offices in Columbus. The deceased was born in this city, June 5th, 1859, and leaves to mourn their loss a wife, two daughters, Mrs. Jessie Kendall and Ethel Sigler, one son, Fred O. Sigler and two grandchildren, Florence and Ned Kendall of the home. Funeral services will be conducted from the home, Monday afternoon at one o'clock. Rev. L. C. Sparks, pastor of the First M. E. church officiating, assisted by Rev. Emory Walters, pastor of the East Main M. E. church. Burial will take place in Cedar Hill cemetery.

Funeral of Frank Heller.
The body of Frank Heller, who died at Albuquerque, N. M., will arrive in the city this afternoon at 4:30 o'clock and will be taken to the Elks' Undertaking parlors in East Main street where funeral services will be held on Monday afternoon at 1 o'clock.

Shop Early.
Do not forget that you have a distinct duty to those who serve you in the stores and makes their Christmas happier by shopping early.

That parents should be made to realize the responsibility of looking after their daughters, and not shift the responsibility to the public, is the opinion of Miss Anne Rioridan, president of the Columbus Federation of Women's clubs.

Save and Conserve.
If the war in which the United States is now assuming a leading part is to be brought to a conclusion in accord with the aspirations and hopes of all true Americans, if, as our president has set forth our national aim, the world is to be "made safe for democracy," all the hardships and difficulties which war brings must not be borne alone by our soldiers on the seas and our soldiers in the trenches. Each one of us at home must bear her share; must willingly do her part, and even though the hardships that are placed upon us are not comparable with those of the armed forces in the field; even though they come to us in common-place manner and in the course of every-day routine, our plain patriotic duty is to co-operate with the government to the end that the resources of the nation may be applied most effectively to the prosecution of the war to a successful end, and thus restore, at the earliest possible day the blessings of peace. This is the spirit of the measure that was brought to the federation at its monthly meeting on November 21, in addresses by I. G. Goldsmith, manager of the Strouss-Hirschberg company, and Samuel McMaster, an official of the Youngstown Retail Grocers' Association, who came before the federation at the invitation of the public affairs committee.

One thing which the government has called upon such business houses as those represented by Mr. Goldsmith and Mr. McMaster to do is to free every possible man for service as a soldier or as a munitionmaker. So when you are asked to carry home your parcels, do so with the conviction that you are not merely helping the merchant, but that you are

PERUNA Best All Around Medicine Ever Made

I Hope You Will Publish This Letter

Mr. W. H. Edgar, 49 Cooper St., Atlanta, Georgia, writes:

"I suffered for fifteen years with rheumatic symptoms. Peruna cured me and I think it is the best all around medicine ever made. I hope you will publish this letter for the benefit of others who suffer."

Those who object to liquid medicines can procure Peruna Tablets.

"doing your bit"; that you individually, are helping your government. That the purpose of the stores is to reduce the work of delivery and not to make money is apparent, when it is understood that the cost of making an ordinary wagon delivery ranges from 15 to 22 cents, or considerable more than the charges made for delivery in any event by the store.

Here, then, are a few thoughts for each of us to take into our daily routine and in our shopping trips: Think well before you buy and then buy what you want, so as to reduce the useless work involved in making exchanges. Do your holiday shopping early in the season. Avoid shopping at the noon hour or late afternoon and the use of the street cars when they should be at the service of the men and women who work, and who have a right to go home, and when you can use them just as well an hour or half an hour earlier. Don't stop buying, but buy thoughtfully and with a purpose. Don't wait till a few days before Christmas to send gifts. Remember that the postoffice and express companies cannot put on great forces of extra help to make up for your delay. Shop early and send early. Don't growl when you get no a crowded train. Remember that the railroads are transporting troops and supplies, and that these must receive first consideration in any circumstance.

Cut your use of wheat and wheat products at least 10 per cent. Use more corn, cornmeal, barley flour, oatmeal, rice and rye. Reduce your consumption of meat and fats at least 20 per cent. Curtail the consumption of sugar to the lowest possible minimum. Save everything; waste nothing. Be tolerant when you come into contact with a "green hand" who is trying to do the work laid aside by a more experienced man who has responded to his country's call.

Our Boys and Girls

Here are some valuable hints for the coming baby's layette: Four abdominal bands, soft flannel unhemmed, six to eight inches wide and twenty inches long; four shorts, silk and wool or cotton and wool, one pair of mittens; two short, loose sacques for sudden changes in temperature; two crocheted or knitted or flannel blankets.

There are three essentials if you would keep your children healthy, happy and amiable. They are an early light supper, a warm bath and proper bed clothing. A warm plunge, followed by a rub with a rough towel will soothe to sleep the most excitable tot. If the weather is warm use tepid water. Let the tots romp in a warm room without their clothes. The skin requires a daily bath of fresh air. Regular bathing and exercise are the source of good looks.

Exposure Aches

Cold rain; winds, and dampness bring out the rheumatic aches. An application of Sloan's Liniment will soon have the blood circulating and the pain will disappear. For neuralgia, lame back, stiff neck, sprains, strains, and all muscle aches, Sloan's Liniment can't be beat. Its rubbing it quickly penetrates and does its work without staining or clogging the pores. Better than plasters or ointments. For cold feet or hands try an application of Sloan's Liniment. Generous sized bottles, at all druggists. 25c, 50c, \$1.00.

Sloan's Liniment KILLS PAIN

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, neuralgia, croup, stiff neck, asthma, neuritis, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite—cold of the chest (it often prevents pneumonia). It is always dependable.

30c and 60c jars; hospital size \$2.50.

AUDITORIUM

SUNDAY'S BILL. Manager Farnum of the Auditorium always alive to the wants of his patrons has arranged a program for Sunday (tomorrow) that is far above the usual Sunday offering at that house. It might be styled a Triple Bill, for three features are shown. Dustin Farnum in "The Scarlet Pimpernel," a comedy that is a scream and the Hearst-Pathe News, full of all the latest world happenings. Arbuckle in his latest Paramount Comedy shows his adventure in the village of Jazzyville. The scenes are laid out on the coast of California, this being the first picture that Arbuckle has made on the coast for the Paramount company. You are assured 2000 laughs in "The Country Hero" and for thrill you get it in the Dustin Farnum photoplay, "The Scarlet Pimpernel."

The story has to do with the reign of terror that swept France at the end of the eighteenth century. In England are a band of notables headed by the Scarlet Pimpernel (so called from a little wayside flower he uses). This band is successful in the work of this band that the Republicans send agents to England to discover the identity of the Scarlet Pimpernel.

Last Showing Tonight. Large crowds have attended the showings so far of "Intolerance," the wonderful D. W. Griffith picture that is being shown at the Auditorium. The last showings will be had today—the last at 8:20 sharp this evening.

Ancient conflict, waged with catapult and battering-ram, cross-bow and flaming engine, siege tower and liquid fire. Mr. Griffith reproduces as warfare was never staged elsewhere. 2000 horses and 3000 carriages were used during the siege of Babylon.

The scenes showing the Nazarene Himself in the Holy Land have been said to surpass in beauty, reverent artistry, and effectiveness the world's most celebrated paintings of this period.

In the French story, Mr. Griffith has resurrected the ray of light of the weak-willed Charles IX, who, with his scheming Catherine de Medici and her sycophants to life, rebuilt Paris and resolutely put down the massacre of St. Bartholomew's Eve.

Last but not least, is the modern story with its understanding of its Day One and her Boy. The story of the Boy is accused of but did not commit, an "this rescue" from execution by the Day One.

A Big Week. Owing to several rentals for the coming week, Auditorium picture fans will receive double value should they attend this theatre Monday or Tuesday. For Manager Farnum, must pay for films whether used or not.

Three big features are to be seen, the leading feature being none other than the celebrated Japanese actor Sessue Hayakawa, who Jesse L. Lasky presents in "The Call of the East," a masterpiece photoplay of the Orient and the Occident. This was written especially for this wonderful Oriental actor, by Beulah Marie Dix. Sessue Hayakawa's wife is one of the leading women, while the other is Margaret Loomis, whose real name is Lehua Waipahu and who made a sensation as the Hawaiian girl in many of Mr. Hayakawa's former pictures. "The Call of the East" is a pulsating drama. "The Retreat of the Germans at Battle of Arras," will be shown on Monday, and in the third episode you get the real taste of the battle—see the tanks in action and the actual bombardment and attack. The Medical corps hunting in "No Man's Land" for wounded and exposing themselves to great danger in the search for pictures and you will never regret seeing them and after seeing the real side of the war, we promise to wear away from our theatres with smiles, for Fatty Arbuckle is seen in his latest Paramount comedy, "A Country Hero." In the above program you get the most costly array of films ever shown in the City of Newark at one time. Our loss is your gain, so come and see for other Monday or Tuesday, so as to give two hours over to amusement and recreation.

The Philharmonic Orchestra. Just what there is a great deal of unjust discrimination against us as a class. We hear much about the German spy system in the face of our positive knowledge that the U. S. has the most efficient secret service in the world and that the American people are recognized to be as alert and as patriotic as any people in earth. The highest duty of the civilian at this hour is to preserve the sanity and sweetness of life at home and as far as is able to show his faith in the efficiency of his own people and his own government. Sometimes the thought arises that the freedom of the press in this country is too free, criticism by the people of our law making bodies and executive too free. Americans at this time have given most generously of their money and art. Just as loyal patriots are to be found in the ranks of our great army and navy, so as can be found in other walks of life. No body of American musicians would tolerate in their midst an alien enemy whose influence was inimical to this country. No loyal American would work side by side with an alien enemy whom he believed to be the paid agent of his country's enemy. Any alien enemy who chooses this country as his home is deserving of our consideration. The letter an esprit of President Wilson's proclamation of last April 6th regarding our enemies, "so long as they stand themselves in accordance with law they shall be undisturbed in the peaceful pursuit of their lives and occupations and be accorded the consideration due to all peaceful and law-abiding persons." The high contribution of America must be the giving of new energy to the world and to the truth that democracy is not selfish and our President has spoken in words that have gone around the world.

The Newark music lovers can rest assured that all the members of the New York Philharmonic Orchestra, that comes to the Auditorium next Wednesday, are all American citizens. This concert for a most worthy cause should have the support of the loyal citizens. Seats are now on sale at the Box Office.

Hans and Fritz. Have you heard the latest news? No? Well Hans and Fritz are coming to town. Don't know Hans and Fritz? Well to enlighten you, so that you won't be perplexed or come unprepared, they are the creation of that great cartoonist, the creator of the Katzenjammer Kids, Hans and Fritz, is the name of the new musical comedy. In three acts, sponsored, produced and fathered by the theatre, it is a most popular play. His latest, employing a massive and competent cast in the acts and the scenes and the story to be the best he has ever presented. A dozen special songs and musical numbers, written and composed especially for the occasion, will be introduced. Twenty pretty girls form an important part in the comedy which is brimful of novelty, wit and fun. It is the first time it has ever been shown in the city.

The Cold Deck. Incessant action of the kind that compels the attention of the audience to end to be found in "The Cold Deck," in which William S. Hart is the star, coming to the Auditorium next Friday and Saturday.

Hart as "Level Leigh," a gambler of the Bret Harte type, is a study in a role that is ideally suited to him and in which he puts all the splendid talents at his command.

The action of the story is laid in "Helianthone," a western mining town in the early days, where the cards were stacked to meet a man's gameness, and a fortune made or lost in a turn of a card.

This is not a re-told old picture. It is the first time it has ever been shown in the city.

What Fatty Gets To Eat. Roscoe ("Fatty") Arbuckle, heaviest of heavyweights comedians and merriest of merry-makers, has adopted a new menu. In spite of the fact that 250-pound film star is making the eight-hour day

look like a myth by arriving at the studio after an early breakfast and remaining until after the dinner hour six days a week, he is heart and soul with the preparedness squad which is urging moderation in the use of food supplies.

That's why "Fatty's" chap chief has been losing a lot of sleep of late, due principally to the fact that he is kept busy totaling the calories in his master's daily diet. The Arbuckle household is now conducted with a view to cutting down all useless extravagance, while maintaining a rule that wholesome diet is of primary importance.

And if the household in the future, "Fatty's" admirers discover that he has become as sylph-like as Vernon Castle or other popular favorites of the dance, they will know that it is because he voluntarily abandoned sirloin steaks and French pastry for a war menu something like this:

Breakfast—Glass of orange juice, one French roll, coffee.

Lunch—Ham and egg sandwich, glass of milk.

Dinner—Bean soup, vegetable salad, coffee.

Expended, versus in the calorie system are authority for the statement that it will be many months before the effect of these simple meals is discernible in "Fatty's" ample form.

ALHAMBRA

Sunday. Douglas Fairbanks, the boyish star of "The Habit of Happiness," a Triangle feature, has surely found his forte in the films. That he has become the most popular juvenile comedian appearing on the screen is the claim of many of his admirers, and it must be admitted that his personal personality has in any case given him a place of note among screen stars.

Fairbanks has been on the stage only since 1901, when he made his debut as the lackey Francois in support of Fredrick Warde, at Ford's Theatre, Baltimore.

Monday and Tuesday. "Life's Whirlpool," the Metro wonder-play starring Ethel Barrymore, which will be presented at the Alhambra theatre on Monday and Tuesday is an "all-Barrymore" production, written and directed by one member of the family, Lionel Barrymore, his star being his sister, and its exterior scenes were photographed at the home of the star.

Miss Barrymore has a beautiful summer home at Taylor Point, near Mamaroneck, N. Y. The grounds and house are most appropriate to the settings called for by the scenario of the wonder-play, and Lionel Barrymore persuades his sister to allow her house to be used as the background.

MUSIC

The Philharmonic's Newest Honor. The news that the New York Philharmonic, under the leadership of Leopold Stokowski, has heard in several of our army encampments must thoroughly rejoice those who have borne in mind the legitimate claims of that institution in the various army quarters to whom great music has all the significance of a vital need. It is a pleasure that our great metropolitan orchestra will play before the men at Camps Mills, Upton and Dix, Victor Herbert's "American Fantasies" and "The World and the Fiddler" among other things—precisely the kind of music that will be acceptable to the tastes and yet good enough to prove a heaven-sent boon to such as hunger and thirst after good symphonic music, but who, in their military surroundings, have hitherto been overlooked. Perhaps scores of the men at these encampments care little about music in its finer manifestations; perhaps a symphony never stirred their interest heretofore in the daily lives of nine out of ten. No matter! The isolated few of finer artistic sensibility, and the fullness of their sacrifices and renunciations, consideration as deep, as careful, as particularized as those less fortunate, must be nurtured. If only a thousand longed for such music as neither communists nor vaudeville shows could provide, it would still be the solemn and patriotic duty of our orchestras or individual artists, chamber music, organizations or choruses to bring to them the irrepressible convenience or the additional labor it imposed.

To establish a precedent is indeed worthy of the New York Philharmonic, so affluent in noble artistic traditions, so unimpeachable in its Americanism. We can only hope that other orchestras of New York and of all other great cities endowed with such institutions will make haste to follow its glorious lead. This orchestra comes to Newark next week.

New Records. A patriotic song of immense popularity, called "Long Boy," appears in the new list of Columbia records. It was written and sung in the Middle West before the East heard of it, but when it reached Broadway the song from the corn country, immediately made up for its lack of popularity rendered by Byron Harlan and the Peerless Quartette. Coupled with it is that well-known ditty concerning the soldier boy and the Red Cross nurse, entitled "I Don't Want to Get Well."

Led by Josef Stransky, the New York Philharmonic Orchestra has played for Columbia two favorite concert numbers—the large form of Dvorak's "New World Symphony" and Saint-Saens' "Marche Militaire." Both are played with all the fine musical understanding and brilliance of interpretation that one might expect from Mr. Stransky and his distinguished organization. The emotional appeal of the large, and the rich coloring of the military march are brought out with equal skill.

John Philip Sousa has done a number of interesting things in the last few weeks. He has re-entered the service of Uncle Sam, shaved off his historic beard and written two new marches, "Naval Reserve" and "Jack Tar." These are played with splendid spirit and rhythm by Prince's Band, for the Columbia list of January 1st.

The Avon Comedy Four, known to all devotees of vaudeville, makes its debut for Columbia with the January record, "The Crazy Over Every Girl in France." The song, melodious and catchy, is put over with humor and spirit. Coupled with it is "The Going Over," one of the newest big patriotic hits, sung by the Peerless Quartette with plenty of fire.

WARNING---CONSERVE GAS

WHEN severe weather is experienced start your auxiliary coal furnace, your coal grates, oil heaters, or other methods of heating. Postpone your washing and ironing until the milder days. Wash days require additional millions of feet of gas.

Don't try to heat every part of a big house with gas. Close off all but a few rooms.

These measures on your part will add directly to the comfort of the neighbor who neglected to provide for such an emergency, or who failed, through no fault of his own, to get either a furnace or a supply of coal.

Every part of our enormous equipment is working smoothly. Every operating employee has been at his post doing his utmost to serve you.

Consumption has increased almost to the breaking point because of the coal shortage and the abnormally cold weather.

Whether or not there is discomfort and actual suffering will depend very largely upon the co-operation of individual consumers.

DON'T BE SELFISH—CONSIDER YOUR NEIGHBOR.

SCHOOL CHILDREN ARE NOW AT WORK FOR RED CROSS

"On Thursday evening after school there came such a lusty ringing of my doorbell, that I thought there must be something dreadful happening—Germans, airplanes, machine guns—all ran through my head at once," said a West Locust street woman to the Advocate today. Continuing she said:

"I ventured to the door and instead of all these dangerous things stood two little boys confronting me, enthusiasm emblazoned in their faces as one of them said: 'Miss (I'm a Mrs. would you like to be a member of the Red Cross for 1918?'"

"What do you suppose any one could say when the second boy spoke up and said:

"You see they've turned the whole business over to us kids now, and we want to get all the names we can."

"Surely, it was a wise thing to do, putting the campaign into the hands of 'us kids' for there will be something doing for the Red Cross, next Tuesday afternoon."

Lodges

K. OF P.

The regular weekly meeting of Newark Lodge No. 13, held on Thursday evening was well attended and the meeting was interesting throughout. The relief committee reports the sick members getting along very satisfactory. Four new applications were received at this meeting and referred to the proper committees. Five Pages being in waiting were called and duly proven in the rank of esquire and another class will be given the Esquire rank next Thursday evening. The page rank will be conferred on the last meeting night in this month, Dec. 27th and in connection with the work the lesson of Friendship will be exemplified in the dramatic form by the team of No. 13. This work is something that all of the members have not seen and they should avail themselves of this opportunity to see it as it is worth the time of any member to come out and witness. The committee appointed to arrange for the "Annual" reports progress, the date of which has not been set but will be some time in January the date will be given later.

Roland Lodge

The extreme cold weather Tuesday evening held the attendance down somewhat at this week's meeting of Roland lodge, No. 303, Knights of Pythias. This fine attendance of officers was gratifying. The Esquire rank was conferred on two Pages. Usual routine business was transacted. Bro. Frank Heller died this week while returning from New Mexico, where he had gone for his health. Bro. Heller had lived in

Columbus for ten years, but was well known to the older members. The Knight rank will be conferred next Tuesday evening and a good crowd is expected. This will be the last degree work for this year as the following meeting night comes on Christmas night. Bro. Root, our candidate for grand outer guard, has been running neck and neck with Bro. Sell of Akron for the honor. Returns from 360 lodges gives each of these candidates over 1600 votes, with Sell in the lead by nine votes. The Newark friends of Mr. Root predict he will pull through on the safe side.

A. I. U.

Newark Chapter, No. 24 met in regular session Thursday evening with a large attendance. 14 applications were presented and 6 candidates appeared for initiation, which was demonstrated by the Ladies staff.

The death of Bro. Joseph H. Ebner was reported. Brother Ebner became a member of the Chapter, Jan. 10, 1916, and carried a \$2,000.00 policy. The sympathy of the Chapter is extended to the bereaved family. The Chapter will give a Junior Christmas entertainment Thursday evening, Dec. 27th. A committee was appointed to arrange a program of music, speaking and a flag drill by 20 juniors. All members and their immediate family are invited.

Owing to the Christmas entertainment coming on the next regular meeting of the chapter, a special meeting will be held Friday evening, Dec. 21. The Juniors will meet for practice at 7 p. m. sharp the same evening.

I. O. O. F.

Newark Lodge No. 623. There was an excellent attendance of Newark lodge the first meeting night of December. We initiated a fine class of candidates. The following officers were elected for the ensuing term:

Noble Grand—D. B. Linton.
Vice Grand—Dr. P. H. Cosner.
Rec. Secy.—K. A. Barcroft.
Fin. Secy.—C. W. Boyd.
Treasurer—R. A. Belt.
Trustees—W. G. Holman and A. L. Thomas.

Monday evening, Dec. 17, we will confer the first degree. All members of the order are urged to meet with us every Monday evening.

W. R. C.

The Woman's Relief Corps met in regular session. Several applications were laid upon and the annual election of officers took place. The Relief Corps wishes to thank the public for attendance at the bazaar and dinner served at Memorial Hall. Special thanks to the Heisey company for beautiful glassware donated to J. J. Carroll and others for generous donations. The object of the Woman's Relief Corps is giving the entertainment was to obtain money to send a box to our soldier boys in the name of the Woman's Relief Corps, No. 45, of Newark. Our thoughts are daily reaching out across the seas to the loved ones from our shores who like their sires are offering up their lives a living sacrifice. With bowed heads and earnest prayers we in-

vocate the King of Kings to bring back our splendid men with victory to our beloved land.

RED MEN.

Minnewa Tribe, No. 52, Improved Order of Red Men will install the following officers at the regular meeting on January 4, 1918: Prophet, Harold Hirst; Sachem, Samuel Johnson, Sr.; Sagamore, Carl Motherspaw; Jr. Sagamore, Lawrence Meechum, Chief of Records, E. Richardson; Collector of Wampum, J. P. Baker; Keeper of Wampum, C. A. Grill; Trustee, S. B. Caffee.

On January 4th we will also have a "roll call" meeting at which every chief belonging to Minnewa Tribe is expected to be present. A special committee has been appointed to secure several suitable prizes which will be awarded that evening and there will be plenty of corn and venison after the meeting. The warriors degree was conferred at the regular meeting this week.

DAUGHTERS OF VETERANS.

Tent 25, D. of V. met in regular session on Tuesday night with a good attendance. The usual order of business was carried out. Three candidates were initiated into the order and given the glad hand of welcome.

The election resulted in the following officers for 1918: President, Laura Kunkler; S. V. Pres., Mae Hall; J. V. Pres., Lillian Gartner; Chaplain, Elsie McCoy; Treasurer, Gladys Kaufman; Patriotic Instructor, Jesse Phillips; Council Nos. 1, 2 and 3, Fredricka Brown; No. 2, Mabel Kussmaul and Mabel Swern. The Red Cross Committee has another bolt of muslin cut into shirts, ready for work. The Ten meets every Friday afternoon to sew, and all members are requested to be on hand, and bring their friends also.

The next meeting falling on Christmas night, the Tent voted to hold the meeting on Thursday night, December 27, and the president desires every member present.

FIRST CELEBRATION OF INDEPENDENCE IN NEWARK IN 1807

Among news items of twenty-five years ago, Dec. 13, 1892, the following appeared in the Advocate last Wednesday:

"Hon. Isaac Smucker was eighty-five years old Monday, 13th, when a number of his most intimate friends made him a pleasant call and spent several hours in recounting the early reminiscences of life."

An Advocate reader writes: It was my privilege a few days ago to read a Centennial History of Licking County (1776-1876) written by Isaac Smucker and read at the Centennial celebration of the Licking County Agricultural Society at the Old Fort, July 4th, 1876. The history was published by Clark & Underwood, book and job printers, in 1876. Among the many interesting items is an account of the first celebration of American Independence that took place in Licking county in the year 1807. It was held on the north side of the square, the dinner being the joint production of Maurice Newman and Abraham Johnson, the two tavern keepers of Newark. What a treat for us now that we must observe meatless days! A hog, a sheep and a deer well roasted graced the table. The hog had an ear of corn in its mouth and was trimmed with lettuce. The sheep had a bunch of fennel in its mouth and was trimmed with parsley; the deer, which was killed by Hananiah Pugh, was decorated with leaves, vines and flowers from the forest. Captain Archibald Wilson, Sr., was president of the day; Rev. Jno. Emmett was chaplain on the occasion, and Dr. J. J. Brice read the Declaration of Independence. The oration was prepared by Archibald Wilson, Jr., but was read by Dr. Jno. J. Brice, owing to the sickness of the author. The military, under the command of Capt. Jno. Spencer, were present in force and fired volleys in response to the toasts. The best of feeling characterized the occasion, which was finally brought to a close with a ball at night. The history also states: "Archibald Wilson, Jr., was the first merchant that established himself in Newark 1804-05."

"Mr. Wilson's manuscripts were almost as neat as copper-plate engraving, and the aforesaid oration would be a relic of rare value. He had a collegiate education and possessed considerable ability. Mr. Wilson served during the War of 1812 on the staff of General Gaines on our northern frontiers, in which service his health was much impaired. He had two brothers, Enoch Wilson and the late Dr. J. N. Wilson."

Bevo
A BEVERAGE

for the boys in khaki

Bevo is a great favorite in the Army Canteens, where none but pure, soft drinks may be sold. After drill or march, you are sure to see a long line of hot and dusty-throated soldier boys making a bee-line for Bevo. They know that there lies complete satisfaction, full refreshment and pure wholesomeness.

At home or abroad—at work or play—between meals or with meals, you will appreciate what we have done for you in making this triumph in soft drinks.

You will find Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars, in the navy, at canteens, at mobilization camps and other places where refreshing beverages are sold.

Bevo—the all-year-round soft drink

 be completed speedily by the war de-
 partment and within sixty days more
 than nine million registrants will be
 divided into five classes as regards
 their liability for military service.
 In a statement issued today Provost
 Marshal General Crowder said:

"I have not the slightest hesita-
 tion in predicting the absolute success of
 the classification system. From
 every part of the country, has come
 praise for the plan. It will provide
 armies in a steady stream; armies
 built from the body politic.

MABEL FIRED HER BED CLOTHING AT THE CITY PRISON

Mabel Rice, who has had a varied
 career, and who is a frequent habitue
 of the city prison, has played many
 roles during her residence there in-
 cluding that of attempted suicide,
 by shooting and shaming at taking
 poison. Last night she played an-
 other part.

After being picked up on a charge
 of drunkenness, she attempted to set
 fire to the prison by sticking the
 blankets of her cot in an open gas
 stove, igniting them. On the drunk-
 enness charge this morning she was
 fined \$5 and costs, another \$5 and
 costs was tacked on for destruction
 of city property and to keep her from
 getting into further mischief she
 was given 30 days in the county
 jail.

C. H. Freeman, a negro, hailing
 from Birmingham, Ala., was before
 Mayor Bigbee this morning on a
 charge of drunkenness and assault
 on William Horton, employee of the
 B. & O. restaurant. He was fined
 \$5 and costs on the drunk charge
 and \$10 and costs on the assault
 charge.

Ted Lewis, alias W. M. Rodgers,
 who confessed in police court Friday
 morning to the burglarizing of the
 Hamill home in North Fourth street
 two years ago, was bound over to
 the grand jury by Mayor Bigbee in
 the sum of \$500.

 front, but so far it has not develop-
 ed. The artillery activity, which has
 been very heavy along the western
 front for the past week or more, has
 died down in intensity on most of
 the front.

East of Ypres yesterday the Ger-
 mans gained 300 yards of front line
 trench in the region of Polderhoek
 Chateau. Elsewhere the Germans
 were repulsed. British positions in
 the Arras-Cambrai sector are being
 bombarded heavily, especially east
 of Bullecourt and north of the
 Scarpe river.

Persistent efforts by the Austro-
 Germans to break through the Italian
 defense immediately east of the
 Brenta river continue, but with lit-
 tle success and heavy casualties. An
 attack against the Col Beretta posi-
 tions was repulsed by the Italians.
 Hand-to-hand fighting developed in
 an Austro-German attack at the head
 of the Calcinio valley. Italian sol-
 diers and French and Italian cannon
 checked the enemy during most of
 the day and at night fall the Italians
 gave up a short section of ground
 at the critical stage of the war has
 been reached, Premier Lloyd George
 says, as Germany is straining to
 strike before American help can
 make up for Russia's failure. Upon
 the tonnage America and Great Brit-
 ain can construct in the next year
 depends the destiny of the world.

There is no prospect for world
 safety, the British premier declared,
 in a league of peace as it would be
 a force without victory, toward
 which the allies are making progress.
 Peace proposals when the Prussian
 military spirit is drunk with boast-
 fulness would be a betrayal of
 trust. Premier Lloyd George said
 he agreed with President Wilson's
 war aims and gave warning against
 men "who think there is a halfway
 house between victory and defeat."

 cial consent."

In making public the telegram,
 Governor Cox said that Akron and
 Canton were just as badly in need
 of coal as Cleveland is, but that ap-
 plication can be made for priority
 orders only for a specific point. The
 situation will be taken to relieve the
 situation in Akron and Canton as soon
 as results are obtained for Cleve-
 land.

**GOVERNOR COX INVITED TO
 APPEAR BEFORE COMMITTEE**

(ASSOCIATED PRESS TELEGRAM)
 Columbus, Dec. 15.—Governor
 James M. Cox of Ohio, announced to-
 day that he has accepted the invita-
 tion of Senator Reed of Missouri, to
 appear before the senate committee
 on manufactures to give details of
 the Ohio coal shortage. The govern-
 or expects to appear before the
 committee in Washington imme-
 diately following the holidays. The
 committee hearings has been heret-
 ofore the first step in a federal
 probe of the Ohio coal situation.

MUST HAVE COAL.
 (ASSOCIATED PRESS TELEGRAM)
 Cincinnati, Dec. 15.—"Unless
 coal is forthcoming immediately we
 will be compelled to discontinue
 service in the western section of the
 city at noon tomorrow."

This statement was given out offi-
 cially this morning by the Cincin-
 nati Traction company, which oper-
 ates the street car lines of this city.

14 CARS FOR QUEEN CITY.
 (ASSOCIATED PRESS TELEGRAM)
 Cincinnati, Dec. 15.—F. C. Baird,
 representative of the federal fuel ad-
 ministrators, re-appeared here shortly
 after noon today and state that 14
 carloads of coal will be delivered to
 Cincinnati either late today or to-
 morrow. Three of these will go to
 the waterworks; two to the county

infirmary; five to the Cincinnati
 Traction company, and the other five
 to other municipal institutions.
 This probably will serve to prevent
 the stopping of the street car ser-
 vice tomorrow.

It was announced today that the
 board of education would probably
 extend the Christmas holidays of the
 school children to close on January
 7, and that the school term would
 continue a week longer at the end
 of the school season.

**SHORTAGE OF COAL
 CAUSES HUNDREDS OF
 PLANTS TO SHUT DOWN**

(ASSOCIATED PRESS TELEGRAM)
 Cleveland, Dec. 15.—City authori-
 ties and State Fuel Administrator
 Johnson, confronted with probable
 tieup of street cars in addition to the
 immediate shutting down of all in-
 dustrial plants in the city, were bend-
 ing every effort today to rush emer-
 gency coal shipments to Cleveland at
 once.

Unless hundreds of tons of fuel is
 received Monday street cars will stop
 running and all light-power in the
 city will be shut off Monday night.

(ASSOCIATED PRESS TELEGRAM)
 Cleveland, Dec. 15.—One hundred
 thousand men were out of work and
 hundreds of Cleveland's largest
 manufacturing plants were shut
 down today because of the shortage
 of coal.

The companies affected, many of
 them turning out rush orders of war
 materials, including shells, shrap-
 nel, motor cars, airplane parts, fuses,
 uniforms, engines, and other war ne-
 cessities required by the govern-
 ment, depend upon the Cleveland
 Electric Illuminating company for
 electric power. Late yesterday the
 coal shortage reached such an acute
 stage that the illuminating company
 shut off electric current to all big
 industrial manufacturing plants.
 Inasmuch as the company furnishes
 most of the power used by the local
 traction company and lights most of
 the electric lamps in the city, it was
 either a matter of stopping street
 car traffic and allowing the city to
 remain unlighted at night or of cur-
 tailing industrial powers.

Manufacturing plants will resume
 operation Monday morning, provid-
 ed coal now being rushed to the il-
 luminating company's plants, is not
 delayed. Only five cars of coal were
 received by the company last night
 and that will last but a few hours.
 Normally, the two power plants of
 the company consume 50 cars of
 coal daily.

ARSENAL MAY SUSPEND.
 (ASSOCIATED PRESS TELEGRAM)
 Watertown, Mass., Dec. 15.—
 Major Tracy C. Dickson, command-
 ant of the government arsenal here,
 said last night that unless he could
 obtain definite assurance by next
 Monday night of a renewed supply
 of coal the arsenal would be forced
 to suspend work on December 18.
 Major Dickson said that he had been
 in communication with Washington
 trying to arrange for immediate
 shipments.

PLANT SUSPENDS NIGHT WORK
 (ASSOCIATED PRESS TELEGRAM)
 Quincy, Mass., Dec. 15.—Because
 of a shortage of coal the Fore River
 plant of the Bethlehem Ship Build-
 ing company, which has been run-
 ning night and day for some time,
 was not in operation last night. Of-
 ficials of the company said that the
 plant would be operated during the
 day only until further notice, but
 that they were hopeful of obtaining
 a larger supply of fuel soon.

HOMES WITHOUT FUEL.
 (ASSOCIATED PRESS TELEGRAM)
 New York, Dec. 15.—With half
 of New York's coal yards empty and
 suffering increasing in the unheat-
 ed homes of the poor, the fuel ad-
 ministrators today exerted all their
 efforts to release thousands of tons
 of coal tied up at sidewalks.

The general fuel situation is re-
 garded as the most serious in the
 history of the city. "Hundreds of
 tenements and homes are without
 heat; some factories have been com-
 pelled to shut down, and churches,
 schools, theaters and public halls
 are affected."

WATER MAIN BURSTS.
 (ASSOCIATED PRESS TELEGRAM)
 Cleveland, Dec. 15.—Foundations
 of hundreds of West Side homes
 were imperiled today, scores were
 suffering from cold and exposure,
 and a large portion of that section
 of the city is without waterpower as
 the result of the bursting of a huge
 water main in Division avenue, near
 West 25th street early this morning.
 The property loss is expected to run
 into many thousands of dollars.

BRITISH REGAIN GROUND.
 (ASSOCIATED PRESS TELEGRAM)
 London, Dec. 15.—The British
 have regained part of the ground won
 by the Germans on the Ypres front
 yesterday, the war office reports.

GERMANS OBTAIN SUPPLIES.
 (ASSOCIATED PRESS TELEGRAM)
 Petrograd, Friday, Dec. 14.—The
 Germans already have begun to ob-
 tain fats and other sorely-needed
 supplies from Russia, according to
 information reaching Petrograd to-
 day.

**ASSIGNED TO DUTY
 AT PHILADELPHIA.**
 Harry Beasley of Maple avenue in
 this city, who re-enlisted in the
 navy, passed through this city this
 morning from Cincinnati to Phila-
 delphia. He was in charge of 35
 recruits who had been assigned to
 duty in the latter city. Before leav-
 ing Cincinnati the men were taken
 to Rer Cross headquarters and each
 was presented with a fine knitted
 sweater and scarf.

REPORT ARREST OF MEMBER OF STEVENS' STAFF

(Continued from Page 1.)
 satisfied that the Bolsheviks are
 entitled to such recognition.

When asked whether the United
 States would join her allies in any
 steps taken in regard to Russia, Lord
 Robert said:

"I should be sorry to see any con-
 siderable step taken in the conduct
 of the war or any preparation made
 for peace without American partici-
 pation."

In regard to rumors that the Bol-
 sheviki government now was plan-
 ning the establishment of a consti-
 tutional monarchy, the minister of
 blockade said:

"In considering rumors, I always
 remind myself that nine-tenths of
 what is said in a revolution is un-
 true. But some such scheme may
 be in German minds. Certainly, the
 Germans would have no sympathy
 with a republic. However, I cannot
 imagine any man so foolish as to
 wish to be a constitutional monarch
 under the Bolshevik regime."

Petrograd, Dec. 14.—(Delayed.)
 The cities of Rostov, Nakhitchev
 and Taganrog in the Don Cossack
 territory are in the hands of the
 Bolshevik troops, according to a
 report issued by the official news
 bureau. General Kaledine, leader
 of the Don Cossacks, the announce-
 ment adds, had been arrested by
 Generals Kaldin and Bototsky and
 their staffs, who have invited the
 mayor of Rostov to go to Novo
 Toherkask, the Cossack capital, to
 discuss the suspension of military
 operations.

**NUMBER APPLY FOR
 ENLISTMENT AT THE
 RECRUITING BUREAU**

Up to noon Saturday the recruit-
 ing bureau for the United States
 navy, temporarily located in the
 Memorial building, had 26 appli-
 cants, and out of these 11 had been
 accepted. Several were turned down
 because they had been drafted in
 other towns and did not have waivers
 from their draft board.

Two boys who were 21 years of
 age, and whose chance at enlist-
 ment ends today, were sent to Park-
 ersburg, W. Va., this morning for
 the final examination.

Among the men who were accept-
 ed here for enlistment since yester-
 day were R. E. Bailey, John B. Mc-
 Kirtick, William A. Moody, Richard
 Shide, Dewey R. Hendron, Clarence
 Walton, Harold Barnhill and Jos.
 Dwyer.

The recruiting office which closes
 tonight, will be open this evening
 until 8 o'clock, and R. Keck, who is
 in charge, will take enlistments up
 to that time.

Comment is made of the marked
 difference in the spirit for enlist-
 ment here in Zanesville, where the
 recruiting party spent a few days
 this week. There they secured but
 three men. The navy offers a big
 opportunity for advancement and a
 man with a trade will be rapidly
 pushed forward. It is probable a
 large number of enlistments will be
 made this evening.

Laws of Twelve Tables.
 The Twelve Tables was the name
 given to the earliest code of Roman
 law. According to the ancient ac-
 count, the code originated in this man-
 ner: In the year 462 B. C., a Roman
 tribune brought forward a proposal to
 appoint five men to draw up a set of
 laws with the view of limiting the
 power of the consuls. The aristocracy,
 always furious, selfish and unwise in
 their struggles with the common people
 of Rome, violently resisted this reform
 and for eight years a fierce warfare
 was carried on between the two orders,
 which ended in a sort of partial victory
 for the plebeians. In 454 B. C. the
 senate assented to the plan of sending
 three commissioners to Greece to re-
 port on the laws in force among the
 different states there. After a lapse
 of two years they returned and it was
 then agreed that ten men should be
 selected to draw up a code. Accord-
 ing to Livy and Diodorus, the laws of
 the Twelve Tables were cut on bronze
 tablets, whence their name, and put
 up in a public place. Whether these
 tablets were destroyed by the Gauls
 when they sacked and burned Rome is
 uncertain.

The slangy girl was evidently dis-
 pleased. "You're a lobster!" she
 cried. Although somewhat taken
 aback the young man proved equal
 to the emergency. "You are just
 the mayonnaise for me," he retorted.
 This delicate bit of repartee caused
 her heart to go out to him at once.

A CLEAR COMPLEXION
 Ruddy Cheeks—Sparkling Eyes
 —Most Women Can Have
 Says Dr. Edwards, a Well-Known
 Ohio Physician

Dr. F. M. Edwards for 17 years treated
 scores of women for liver and bowel
 ailments. During these years he gave to
 his patients a prescription made of a few
 well-known vegetable ingredients mixed
 with olive oil, naming them Dr. Edwards'
 Olive Tablets. You will know them by
 their olive color.

These tablets are wonder-workers on the
 liver and bowels, which cause a normal
 action, carrying off the waste and poison-
 ous matter in one's system.

If you have a pale face, sallow look, dull
 eyes, pimples, coated tongue, headaches, a
 listless, no-good feeling, all out of sorts,
 inactive bowels, you take one of Dr.
 Edwards' Olive Tablets regularly for a time
 and note the pleasing results.

The Twenty Payment Plan

An original and copyrighted plan of lending money on Furniture, Pianos, etc. The following features make the Twenty-Payment Plan most desirable and absolutely fair to the borrower.

- 1.—It permits twenty full months to repay your loan, should you wish it.
- 2.—It relieves you of the responsibility of promising to pay large payments.
- 3.—However, the borrower if he desires can pay in part or in full at any time.
- 4.—Interest is charged at the legal rate only for the actual number of months the loan is carried.
- 5.—You can pay in full in one month or twenty months and the interest is charged only on the actual amount of cash still outstanding.
- 6.—In other words: You are under no obligation to carry the loan any longer than you desire. The faster you pay the less it costs.

\$2.50
Monthly Payment on \$50.
\$3.75
Monthly Payment on \$75.
\$5.00
Monthly Payment on \$100.

Interest at the legal rate. No extra charges for papers, appraising, etc. Ask for free folder which explains The Twenty-Payment Plan in detail.

RED CROSS DRIVE FOR MEMBERSHIPS HERE ON TUESDAY

Presenting a record of accomplishments unparalleled by any similar situation in the world's history, the American Red Cross Monday begins its nationwide Christmas Membership Drive for 15,000,000 members by Christmas Eve.

The Newark drive for memberships will take place next Tuesday afternoon conducted by 2200 school boys and girls. All Red Cross memberships will expire Dec. 31, so nobody should refuse to take a membership for 1918 from one of the Newark boys and girls who solicits it.

Thirteen million separate articles—hospital supplies—the handwork of thousands of American women, have been shipped overseas in the last seven months. The average daily tonnage in that period equaled twenty carloads. These supplies have been distributed among 3,423 war hospitals. In this same seven months the Red Cross organized forty-five ambulance companies, and forty-nine hospital units. It has enrolled 14,000 nurses, 2,000 of whom are already in foreign service. To offset the depletion it has made in the ranks of nurses and surgeons, the Red Cross has given "home care of the sick" courses to 34,000 women.

From its War Fund the Red Cross has appropriated \$20,691,240 for relief measures in France. It has appropriated for work in Belgium \$720,000, in England \$1,066,520, in Italy \$750,000, in Russia \$1,359,000, in Roumania \$1,518,900, and among Armenians and Syrians \$1,800,000.

Appropriations in U. S. About \$11,000,000 has been appropriated for work in the United States. Of this, \$7,600,000 will be returned to the War Fund, as this amount was used in purchasing yarns and raw hospital supplies for resale to chapters. The remainder has been spent in the army cantonment and training stations in each of which a bureau of camp service has been established.

In connection with the administration of the War Fund comes the statement from national headquarters that the cost of raising this tremendous fund was just a fraction above one-half of one per cent of the \$119,000,000 subscribed. Through a wide use of volunteer executives and a close system of interests with the banks the Red Cross is getting \$1.02 worth of work out of every dollar that has been raised for the War Fund.

The aggregate quotas of Ohio, Indiana and Kentucky (the Lake Division states) is 1,600,000. Just about double the present reported memberships in this territory. Every one of the 345 chapters in these states has appointed a campaign manager and is prepared to make a vigorous house to house, factory to factory, store to store, office to office canvass. Two-thirds of the drive supplies are in the hands of the chapters and the remainder will be delivered by Monday.

Tuesday will be Civil Employees' Day, Wednesday Women's Day, Thursday School Day, Friday Employers' Day, Saturday Boy Scouts' Day, Sunday Church Day, and Monday, Dec. 24, Red Cross Christmas Ceremony Day, winding up with the lighting of candles behind Red Cross service flags in windows and with caroling.

"Every home a Red Cross home" is the slogan, and it means father, mother, sister, brother, son, daughter—every member of your household enrolled.

SHELVE SUFFRAGE BILL. Washington, Dec. 15.—Majority Leader Kitchin sought unanimous consent of the house to vote January 7 on the constitutional suffrage amendment, but Representative Walsh, Massachusetts, objected, and that ended it for the time being.

COX INTRODUCES TEDDY. Cincinnati, Dec. 15.—Introduced by Governor James M. Cox, Colonel Theodore Roosevelt spoke on topics relating to the war, and particularly urged the buying of thrift stamps, to a large and widely-cheering audience at Music Hall last night.

We Accept United States Liberty Bonds As Cash—Only Seven More Shopping Days Before Christmas

When Children Dream And Wake

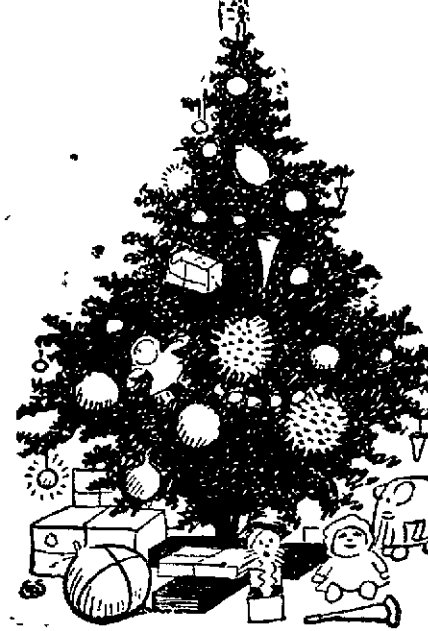

Down through the ages has come the golden spirit of Christmastide. Christmastide, when the hearts grow larger and the fingers that necessity or habit has bent tightly over pocket, loosen involuntarily.

Christmastide, when children dream and wake and, dreaming or waking, long for one tiny glimpse of that dear little old man with cheeks like red roasted apples and eyes like stars, with a pack that holds all that is beautiful in this world of ours, with heart that is tender enough to care for the child of the satin-world and the starving, homeless, hopeless waif of the streets alike: dear, blessed, glorious old Santa Claus.

It's a work-a-day world, but to all of us comes a time when the scales drop from the eyes, when we realize that our ambition to earn, to surpass, to rule is but a pitiful result of our feverish twentieth century training; that there is nothing more beautiful in the world than the desire to bring happiness to other people.

Gifts at Christmas time, gifts to our friends and to those who have battled with the world's wind and come out losers—if you give them, buy them carefully.

We have many, a great store full, to show them will be pleasant, to sell them will be pleasant, to suit you in your choice will be more pleasant.

Bible Lecture Sunday. If there is one thing above another, of vital importance and of interest to the greatest number of people, it is what the Bible says as to the future of the "Great Time of Trouble" mentioned, more especially in the 24th chapter of Matthew's gospel and previously told by Daniel in the 12th chapter. "The World War in Prophecy" will be the subject of a lecture given by W. H. Spring of Portsmouth, in Taylor Hall, Sunday at 2:30 o'clock p. m. and in that lecture Mr. Spring will cite you to all the scriptures, or a great many at least that will show plainly when we are to expect this trouble and what effect it is to have in the earth. The prophecy of the Bible is true and the above mentioned chapters and books together with many others tell quite exact as to the time this is to take place; proving beyond a doubt that we are in the beginning, and approaching the very midst of the greatest of all troubles, since the world began; and preceding also the greatest blessing that is to come to all mankind.

IRSLINGER IS A WORTHY OPPONENT OF PAUL BOWSER

Henry Irslinger of Atlantic City, matched to wrestle Paul Bowser at the Auditorium theatre, Thursday, Dec. 20, will be seen for the first time in this city. He has a record that he may well feel proud of. For years he held the title of middle-weight champion of Europe, and since coming to this country several years ago has met some of the best men in the country and established a reputation by defeating them. Irslinger is an athlete who would command attention anywhere. Weighing 165 pounds and in the pink of condition, he will give Bowser the battle of his career.

Bowser realizes that he has an exceptionally clever opponent and he is losing no time in his training quarters. His gymnasium last night was a busy place and Bowser took on all comers, working for a couple of hours. Bowser will take no chances but will train every day up until the time he meets Irslinger on the mat. The go promises to be full of excitement from start to finish and a record breaking crowd will undoubtedly be present to witness it.

Fans have been looking up the record of the man from Atlantic City, and they realize that the bout Thursday evening will be one of the big events of the season and many are requesting stage seats thus far in advance. Preliminaries are being arranged and the go will be one of the premier holiday attractions of Central Ohio.

"THE TOY LIKE STRUCTURAL STEEL"

Hello Boys! The big reason why Erector is the choice of thousands of boys is because it is genuine. You can build toy steel bridges, sky scrapers, battleships, etc., with Erector Sets and never lose interest as they're exactly like the real thing. Erector girders have interlocking edges so you can build with square four-sided columns, instead of flat strips, and your models are "strong as a horse," instead of flimsy and shaky.

We also carry all extra Erector parts, motor, gear boxes, reverse bases, etc., and at present time have the following Gilbert Toys in stock: Gilbert Wireless Telegraphy, Gilbert Electrical Sets, Gilbert Mysto Magic, Gilbert Chemistry Outfits, Gilbert Nurses' Outfits, "for the girls."
